SUMMARY

12 years designing digital products used by millions of people across 14 countries. My work spans a behavioural wellness app with 2M+ users, an enterprise AI suite serving 35,000+ people daily, a fintech payments ecosystem, and a national brand identity created overnight with no brief. I design end-to-end — mobile apps, employer portals, internal tools — and I own design systems from token architecture to shipped component libraries. I work at the intersection of human judgement and AI tools: Claude, Cursor, Figma Make, v0, Framer and Lovable let me explore multiple directions simultaneously, but 12 years of craft is what decides which one is right.

PROFESSIONAL EXPERIENCE

Lead UX/UI Designer

Apr 2021 – Present · Remote · UK

TaskUs

Designed end-to-end product suite across mobile app, employer web portal and internal admin tools for Fortune 500 clients — the exact three-touchpoint structure Rain operates. 35,000+ daily users across 14 countries.

- **TaskGPT (AI Productivity Suite):** End-to-end design for an AI agent integrating OpenAI, PaLM 2 and LLaMA — from mobile interface to admin oversight tools. Reduced call-handling time 20%, operational costs 20%. Used Figma and Claude Design throughout; ran parallel explorations cutting time-to-concept 60%.
- **EvaluateUs (Assessment Platform):** UX strategy and redesign — increased result accuracy 70%, saving clients ~£9,500/month. Applied WCAG 2.1 AA accessibility standards throughout.
- **LevelUp (Gamification Ecosystem):** Designed interactive scoreboards and 3D assets in Three.js. Daily engagement up 40%. First gamification system at TaskUs — now a design standard.
- **PCAF Framework:** Created the Persona-Centric Analysis Framework to replace assumption-led research. Onboarding improvement 15%; adopted product-wide.
- **AI-augmented workflow:** Actively use Claude Code, Cursor, Figma Make, Framer, and v0 to prototype multi-directional UX simultaneously — not for speed alone, but to surface edge cases and validate multiple user mental models before stakeholder review.

Several projects at TaskUs are under NDA — the full scope of this work goes well beyond what can be listed here. A one-to-one call is the only way to fully appreciate the depth and complexity involved.

Product Designer

Mar 2017 – Feb 2021 · Indore, India

Mind-e-fy Technologies

Fintech, payments and digital wellness studio. Sole designer end-to-end across all products.

- **Repos Energy (Fintech + Payments):** Designed the full UX for earned wage disbursement and fuel delivery payments — mobile app, web portal and field operations dashboard. Cross-touchpoint fintech product with real-time transaction flows, payment confirmation and delivery tracking.
- **YourHour (Behavioural Mobile App):** 2M+ users, 80,000+ reviews, 4.6★, 22 languages. Behavioural design that changed daily financial-adjacent habits — same psychology Rain applies to financial health. 300+ user research sessions.
- **GreenBill (Digital Payments + Invoicing):** Paperless receipt and digital invoicing system — Scalable Usability Testing Toolkit resolved 85% of usability issues pre-development.

Product Design Consultant & Founder

2014 – 2017 · Bengaluru, India

The Artist Banda

Independent consultancy. Worked across fintech, energy, and developer tooling.

- **Repos Energy:** Unified cross-touchpoint UX across energy delivery and fintech — mobile app, web portal, and field operations dashboard.
- **ZuQA (API Testing Tool):** Applied progressive disclosure to reduce cognitive load and technical onboarding time 15% for developer users.

SKILLS & EXPERTISE

Design Strategy	UX Vision · Product Roadmapping · Design Systems · Behavioural Design · Gamification · Accessibility (WCAG 2.1 AA)
AI-Augmented Workflow	Claude Code · Cursor · Figma Make · v0 by Vercel · Framer · Webflow · Lovable · Bolt — used to multiply design thinking, not just execution speed
Research Methods	User Research (300+ sessions) · Usability Testing · Journey Mapping · Ethnographic Studies · Data-Driven Design · PCAF Framework
Technical	Figma · Adobe Creative Suite · Framer · Webflow · HTML/CSS · Three.js · AR/VR Integration · Motion Design
Leadership	Design Systems Ownership · Cross-functional Collaboration · Agile · Sprint Planning · Design Mentorship · Stakeholder Presentations

EDUCATION

Interaction Design Foundation	UX Design, UI Design & Interaction Design Certifications	2015
Maya Academy of Advanced Cinematics (MAAC)	AD3D Edge+ — Design, Animation & VFX · Pre-computer-graphics era training; deep visual craft foundation	2012–2014
Bachelor of Commerce with Computer Science	B.Com + CS	2014
