PROFILE

12 years designing digital products used by millions of people across 14 countries. My work spans a behavioural wellness app with 1M+ users, an enterprise AI suite serving 35,000+ daily users, a fintech payments ecosystem across mobile, web and field operations, and a national brand identity created overnight with no brief. I design end-to-end — from research and strategy through to shipped component libraries and production-ready interfaces. I work at the intersection of human judgement and AI tools: Claude, Cursor, Figma Make, v0, Framer and Lovable let me explore multiple directions simultaneously, but 12 years of craft is what decides which one is right.

EXPERIENCE

Lead UX/UI Designer

Apr 2021 – Present

TaskUs · Remote, UK

Enterprise product suite for Fortune 500 technology clients — mobile app, employer web portal, and internal admin tools. 35,000+ daily users across 14 countries.

- **TaskGPT (AI Productivity Suite):** End-to-end design for an AI agent integrating OpenAI, PaLM 2 and LLaMA — mobile interface through to admin oversight tools. Reduced call-handling time 20%, operational costs 20%. Ran parallel UX explorations using Figma Make and Claude, cutting time-to-concept by 60%.
- **EvaluateUs (Assessment Platform):** UX strategy and full redesign — increased result accuracy 70%, saving clients ~£9,500/month. WCAG 2.1 AA applied throughout.
- **LevelUp (Gamification Ecosystem):** Designed interactive scoreboards and 3D assets in Three.js. Daily engagement up 40%. First gamification system at TaskUs — now a company-wide design standard.
- **PCAF Framework:** Created the Persona-Centric Analysis Framework to replace assumption-led research — 15% onboarding improvement, adopted product-wide.
- **AI-augmented workflow:** Actively use Claude Code, Cursor, Figma Make, and v0 to prototype multiple UX directions simultaneously — surfacing edge cases and validating user mental models before stakeholder review.

Several projects are under NDA. A one-to-one conversation is the only way to appreciate the full scope.

Product Designer

Mar 2017 – Feb 2021

Mind-e-fy Technologies · Indore, India

Fintech, payments and digital wellness studio. Sole designer end-to-end across all products.

- **YourHour (Behavioural Mobile App):** 1M+ users, 80,000+ reviews, 4.6★, 22 languages. Behavioural design grounded in 300+ user research sessions — changing daily digital habits through compassionate, non-punitive intervention design.
- **Repos Energy (Fintech + Payments):** Full UX for earned wage disbursement and fuel delivery payments — mobile app, web portal, and field operations dashboard. Real-time transaction flows, payment confirmation, and delivery tracking.
- **GreenBill (Digital Payments + Invoicing):** Paperless receipt and invoicing system — Scalable Usability Testing Toolkit resolved 85% of usability issues before development began.

Product Design Consultant & Founder

2014 – 2017

The Artist Banda · Bengaluru, India

Independent consultancy working across fintech, energy, developer tooling, and brand identity.

- **Aatmnirbhar Bharat Logo:** Designed the national identity mark for India's PM SVANidhi scheme overnight with no brief — now used by 90% of Indian manufacturers and across government campaigns nationally.
- **Repos Energy:** Unified cross-touchpoint UX across energy delivery and fintech — mobile app, web portal, and field operations dashboard.

- **ZuQA (API Testing Tool):** Applied progressive disclosure to reduce cognitive load and developer onboarding time by 15%.
- **JEGO (UAE):** Wellbeing and mentorship platform designed for Gulf cultural nuances — 25% improvement in usability satisfaction.
- **EarlyFoods (UAE):** E-commerce UX for a premium organic food brand. 400+ parent interviews revealed trust, not price, as the core barrier. Redesigned the experience around trust-first journeys, improving conversion rates.

SKILLS & EXPERTISE

Design Strategy	UX Vision · Product Roadmapping · Design Systems · Behavioural Design · Digital Health · HealthTech · Gamification · Accessibility (WCAG 2.1 AA)
AI Workflow	Claude Code · Cursor · Figma Make · v0 by Vercel · Framer · Lovable · Bolt · Generative AI Tools — used to multiply design thinking, not execution speed alone
Research	User Research (300+ sessions) · Usability Testing · A/B Testing · Journey Mapping · Ethnographic Studies · Data-Driven Design · CRO · PCAF Framework
Technical	Figma · Adobe Creative Suite · Framer · Webflow · HTML/CSS · Three.js · AR/VR Integration · Motion Design
Leadership	Design Systems Ownership · Cross-functional Collaboration · Agile · Sprint Planning · Design Mentorship · Stakeholder Presentations

NOTABLE WORK

Aatmnirbhar Bharat Logo — official national identity, Government of India PM SVANidhi scheme; used by 90% of Indian manufacturers nationwide.

YourHour App — 1M+ users · 4.6★ · 80,000+ reviews · 22 languages · 300+ user research sessions.

AWS Summit London 2025 — featured work presented at AWS Summit.

EDUCATION

Interaction Design Foundation · UX Design, UI Design & Interaction Design	2015 – 2017
Maya Academy of Advanced Cinematics (MAAC) · AD3D Edge+ · Design, Animation & VFX	2012 – 2014
Bachelor of Commerce with Computer Science · B.Com + CS	2011 – 2014
