PROFILE

I design products that change what people do, not just how they tap. Twelve years of it, across 14 countries: a behavioural wellness app with over a million users, an enterprise AI suite that 35,000 people use every day, a fintech payments system spanning mobile, web and field teams, and a national logo I drew overnight with no brief. I work end to end, from research and strategy through to the component libraries and finished screens that ship. I use Claude, Cursor, Figma Make and v0 to explore several directions at once, but twelve years of craft is what decides which one is right.

EXPERIENCE

Lead UX/UI Designer

Apr 2021 – Present

TaskUs | Remote, UK

An enterprise product suite for Fortune 500 technology clients. 35,000+ people use it every day across 14 countries.

- **TaskGPT (AI productivity suite):** Designed an AI agent end to end, from the mobile app through to the admin tools, built on OpenAI, PaLM 2 and LLaMA. It cut call-handling time and running costs by 20% each. I ran directions in parallel with Figma Make and Claude, which got us to a working concept 60% faster.
- **EvaluateUs (assessment platform):** Owned the UX strategy and full redesign. Result accuracy went up 70% and saved clients around £9,500 a month. Built to WCAG 2.1 AA throughout.
- **LevelUp (gamification):** Designed the interactive scoreboards and 3D assets in Three.js. Daily engagement rose 40%. It was the first gamification system at TaskUs and is now the company standard.
- **PCAF framework:** Wrote the Persona-Centric Analysis Framework to replace guesswork in research. Onboarding improved 15%, and the framework is now used across every product.
- **AI-augmented workflow:** I use Claude, Cursor, Figma Make and v0 to prototype several UX directions at once, so we catch edge cases and check how people actually think before anything reaches stakeholders.

Several projects are under NDA. Happy to talk through the full scope.

Product Designer

Mar 2017 – Feb 2021

Mindify Technologies | Indore, India

A fintech, payments and digital-wellness studio. I was the only designer, working end to end across every product.

- **YourHour (behavioural mobile app):** 1M+ users, 80,000+ reviews, 4.6 stars, 22 languages. I grounded the design in more than 300 research sessions and built it to shift daily phone habits gently, without shame or nagging.
- **Repos Energy (fintech and payments):** Full UX for earned-wage payouts and fuel-delivery payments across a mobile app, web portal and field dashboard, with real-time transactions and delivery tracking.
- **GreenBill (digital payments and invoicing):** A paperless receipt and invoicing system. I built a Scalable Usability Testing Toolkit that caught 85% of the usability issues before any code was written.

Product Design Consultant and Founder

2014 – 2017

The Artist Banda | Bengaluru, India

My own consultancy, working across fintech, energy, developer tooling and brand identity.

- **Aatmnirbhar Bharat logo:** Drew the national identity mark for India's PM SVANidhi scheme overnight, with no brief. It is now used by 90% of Indian manufacturers and across government campaigns.
- **Repos Energy:** Pulled the UX together across energy delivery and fintech, covering mobile, web and field operations.
- **ZuQA (API testing tool):** Used progressive disclosure to lower the mental load and cut developer onboarding time by 15%.

- **JEGO (UAE):** A wellbeing and mentorship platform shaped for Gulf culture. Usability satisfaction rose 25%.
- **EarlyFoods (UAE):** E-commerce for a premium organic food brand. 400+ parent interviews showed that trust, not price, was the real barrier, so I rebuilt the experience around trust first. Conversion went up.

SKILLS AND EXPERTISE

Design Strategy	UX vision, product roadmapping, design systems, behavioural design, digital health, gamification, accessibility (WCAG 2.1 AA)
AI Workflow	Claude, Cursor, Figma Make, v0, Framer, Lovable, Bolt, generative AI tools
Research	User research (300+ sessions), usability and A/B testing, journey mapping, ethnographic studies, CRO, PCAF framework
Technical	Figma, Adobe Creative Suite, Framer, Webflow, HTML/CSS, Three.js, AR/VR, motion design
Leadership	Design-system ownership, cross-functional collaboration, agile and sprint planning, mentorship, stakeholder presentations

NOTABLE WORK

Aatmnirbhar Bharat logo: the official national identity for the Government of India's PM SVANidhi scheme, used by 90% of Indian manufacturers.

YourHour: 1M+ users, 4.6 stars, 80,000+ reviews, 22 languages, 300+ research sessions.

AWS Summit London 2025: work featured at the summit.

EDUCATION

Interaction Design Foundation UX, UI and Interaction Design	2015 – 2017
Maya Academy of Advanced Cinematics (MAAC) AD3D Edge+ Diploma, Design, Animation and VFX	2012 – 2014
Bachelor of Commerce with Computer Science B.Com and CS	2011 – 2014
